Chairman

Blood for Life

Loyalty to the profession is the strongest drive of the circulation flowing from the heart, through the heart's arteries, to the veins of needy patients who will not survive without receiving the needed lifesaving blood transfusion, it encourages that blood donation becomes voluntary and unremunerated. At Ibn Al-Nafees Hospital "INH," blood donation has become a culture and moral obligation. People rush to join others in donating for the benefit of those in need. The staff of INH has shown their enthusiasm and happiness in responding to the call of humanity by donating. All staff members at INH are encouraged to queue up and be the first in the campaign to respond to the moral obligation of saving others who are in great need.

The Humanity event will take place on May 28th. Last year's blood donation day was very successful, with more than 80 suitable donors being accepted for donations.

We, INH management, highly appreciate their esteemed act of humanity. God bless all of them, and may Allah reward them abundantly. We must not forget Sister Layla and Benoy, who work very hard to make these events a great success.

Ibn Al-Nafees Hospital Ghabga

In a delightful evening filled with the Ramadan spirit Ibn Al-Nafees Hospital hosted its annual Ghabga Party at the Grove Hotel in the presence of hospital employees, doctors, shareholders and board of directors. The event is one of the events that the hospital organized to enhance social communication among employees and strengthen relationships between them. Employees enjoyed the event's Ramadan spirit, accompanied by interactive entertainment, games, raffles as well as pleasant surprises.

Mr. Ali Fardan
CEO

As we continue in our mission to provide exceptional healthcare services, I am motivated to share some significant developments and achievements that highlight our commitment to excellence. Our dedication to quality healthcare services remain paramount. Through meticulous planning and strategic investments, we have successfully procured advanced equipment approved by the hospital board.

These state-of-the-art tools empower our medical professionals to deliver cutting edge care and ensure the best possible outcomes for our patients. Furthermore, our focus on continuous improvement extends to the development of our doctors' approaches and capabilities across various medical procedures. Through comprehensive training programs and ongoing mentorship, we are equipping our team with the knowledge and skills necessary to excel in their respective fields. By nurturing a culture of learning and innovation, we are poised to meet the evolving needs of our patients with compassion and expertise. In addition, I am proud to share that we have recently integrated the groundbreaking LUNIT system AI into our diagnostic capabilities. This cutting-edge technology recognized globally for its precision and reliability, holds tremendous potential in the early detection and treatment of cancer. By harnessing the power of artificial intelligence, we aim to revolutionize cancer care and improve outcomes for patients across our community.

We are Launching an INH hospital wide Blood Donation Drive in May 2024. This initiative underscores our unwavering commitment to giving back to the community and saving lives. I urge every one of you to participate wholeheartedly in this noble endeavor. Together, let us embrace the opportunities that lie ahead and continue to strive for excellence in everything we do.

INH Management at Al Arrayed Eye Centre Ghabga

Quality Team from Ibn Al-Nafees Hospital and Al Arrayed Eye Centre Attended Accreditation Bootcamp Organized by NHRA

The workshop was organized in preparing the hospitals for NHRA accreditation based on the new standards. Mr. Mohamed Alaali
HR & Training Manager

Confidentiality

As Human Resources department, it is our responsibility to ensure that we maintain a secure and confidential work environment. Today, we would like to emphasize the importance of confidentiality and its significance in upholding the integrity of our organization. This message is intended to remind all employees about their role in safeguarding sensitive information.

Confidentiality is a cornerstone of our organization, and it extends to various aspects of our operations, including but not limited to patient data, strategic plans, employee records and financial information such as compensation which is considered confidential and personal, so sharing or discussing it openly may lead to misunderstandings, discomfort, and potential conflicts among colleagues. We all must understand and respect the confidentiality of these materials, as any breach can have severe repercussions for both the hospital and the individuals involved.

Accordingly, maintaining confidentiality is not just a legal and ethical obligation, but also crucial for the success and reputation of our organization so we can collectively create a workplace that values trust, professionalism, and respect for privacy.

Patient Affairs: Enhancing Patient Experience and Empowerment

Karim Al Sari
Head of Patient
Relation

We at the Patient Affairs Department are an integral part of the healthcare system, acting as patient advocates, enhancing the patient experience by addressing their concerns, protecting their rights and facilitating effective communication in order to ensure that they receive the highest standard of health care.

The Department of Patient Affairs plays a pivotal role in the Department of Health Care, as it is considered the main link between the patient and the rest of the health departments, as the role of the department starts from the moment the patient enters the hospital until the moment of his discharge, during this course various services are provided to the patient by the department, the most important of which are: providing this course various estimated cost for surgeries, Patient admission procedures, coordination between all departments, inpatient management down to discharge procedures.

Better Design, Better Patient Comfort
